REASONS FOR ALLOWANCE

The following is an examiner's statement of reasons for allowance: the claimed invention using network interaction between a server and user computer with the specific feature of position tracking interaction parameters using cursor position tracking event handlers and time tracking measurements is not found in the prior art either singly or in combination, which is not considered to be anticipated by or capable of being obviated over the disclosure of Merriman (US 5,948,061). This patentably distinct feature is recited in each of the independent claims 1, 7, 9, and 15.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Election/Restrictions

The restriction requirement made in an earlier Office action is withdrawn since it is considered that the independently claimed method and independently claimed system are interpreted as coextensive invention that is not patentably distinct.

Any inquiry concerning this communication or earlier communication from the examiner should be directed to Steve Gravini whose telephone number is (703) 308-7570 and electronic transmission / e-mail address is "steve.gravini@uspto.gov". Examiner can normally be contacted Monday through Friday from 6:00 a.m. to 3:30 p.m. **If applicants choose to send information by e-mail, please be aware that confidentiality of the electronically transmitted message cannot be assured.** Please see MPEP 502.02.
